

Introduction to Brain and Cognition

Assignment 2 (10 marks)

You are required to complete this online IQ test available at:

<https://www.free-iqtest.net/>

Based on your experience, you must submit a handwritten report addressing the following components:

- Reflect on your overall experience while taking the test.
- Identify and discuss the cognitive processes you believe the test is designed to assess.
- Mention any two cognitive capacities or abilities (in which you consider yourself proficient) that were not assessed by the test.
- To what extent do you think your performance on this test reflects your overall intelligence? Justify your response.
- Critically evaluate the test by discussing its strengths as well as its limitations, drawing on your own experience where relevant.
