

Assignment 4: Introduction to Brain and Cognition

(10 marks)

Instructions:

Pick two tracks:

- **First track:** one of your current favourite tracks and
- **Second track:** one of favourite tracks from three to four years ago.

Tasks:

1. Listen for three distinct streams of audio within the two songs (it can be an instrument, melody, or rhythm).
2. Document which stream grabs your attention the most and which one the least (you can pick a segment of the songs for this).
3. Document your assessment of felt VA values for the entire song. Does it change?
4. Identify one Listener Attribute unique to you that relates to your answers.

Note: You can also pick popular songs from current times and from a few years ago.

Assess: (To be included in the handwritten report)

1. What are the three distinct sounds you hear in the **first track**? (1 mark)
2. **[First Track]** Which stream of sound grabs your attention the most? (1 mark)
3. **[First Track]** What do you feel about the Valence of the song? (1 mark)

Extremely low	1	2	3	4	5	6	7	8	9	10	Extremely high
---------------	---	---	---	---	---	---	---	---	---	----	----------------

4. **[First Track]** What do you feel about the Arousal of the song? (1 mark)

Extremely low	1	2	3	4	5	6	7	8	9	10	Extremely high
---------------	---	---	---	---	---	---	---	---	---	----	----------------

5. What are the three distinct sounds you hear in the **second track**? (1 mark)
6. **[Second Track]** Which stream of sound grabs your attention the most? (1 mark)
7. **[Second Track]** What do you feel about the Valence of the song? (1 mark)

Extremely low	1	2	3	4	5	6	7	8	9	10	Extremely high
---------------	---	---	---	---	---	---	---	---	---	----	----------------

8. **[Second Track]** What do you feel about the Arousal of the song? *(1 mark)*

Extremely low	1	2	3	4	5	6	7	8	9	10	Extremely high
------------------	---	---	---	---	---	---	---	---	---	----	-------------------

9. Identify and talk about one Listener Attribute unique to you that relates to your answers. *(2 marks)*
