

Memory Assignment - 10 marks

1. Watch [this experiment](#) **once** and in one go without pause-and-play, and discuss the following:
 - a. Have you watched this video before? Explain your experience of viewing it (in terms of what you got right or wrong, **after one watch only**) - **1**
 - b. Comment on the deficit you'd faced and relate it to the memory systems you've learnt in class - **2**
 - c. If you were to rewatch this in the future, which memory system would support it and how? - **2**
2. You learnt in class how you can control for **recency**. Reiterate it and also suggest how you can control for **primacy** in memory experiments. - **2**
3. Take this [memory test](#) of 4 Rounds. Do the following and share screenshots of your score in the assignment doc. - **3**
 - a. First, set to Level 3, Type - Classic, and share your score screenshot.
 - b. Next, set to Level 7 or 8, Type - Classic, and share your score screenshot.
 - c. Finally, set to Level 7 or 8, Type - Reverse, and share your score screenshot.
 - d. What aspect of your memory do you think this game tested?
 - e. How did your performance change over the attempts and what do you think explains the change?
